HAPPY LIGHTS

The happy lights take advantage of the thickness and brilliance of our crystal to create a light with unending refractions. Each one is hand manipulated to create a creased and singularly individual form. The works are blown in solid clear crystal or use the Italian technique of ‘sommerso’ or encased color. Hand blown and shaped in lead free crystal. No molds are used, and each glass shape is unique. Designed and made by Siemon & Salazar in California. Signed.

Included

light assembly w/ 7' of cord & fast jack connector
20W halogen bi-pin bulb

LED option available upon request

Approx. Weight 2.5 lbs
MAX WATT 20W halogen
Voltage 12V low voltage
