ORB TABLE LAMPS

The simplicity of the color and shape of these lamps is accented by custom hardware and an inverted lip. The grey and clear bubble orb lamps use a swath of whipped glass to diffuse the bulb and create patterns of light on nearby surfaces. Hand blown and shaped in lead free crystal. No molds are used, and each glass shape is unique. Designed and made by Siemon & Salazar in California. Signed.

Included
E12 candelabra base light assembly
6’ cord with plug (dimmer optional)
Bulb-2.5W LED 2700K clear dimmable tube

MAX WATT 40W
